The variety of connectors on audio equipment sometimes leads to confusion in wiring. The diagrams below provide wiring recommendations for most common cables.

**NOTE:** XLR pin 1 is always connected to cable shield.
STEREO PHONE PLUG
(USED AS A BALANCED LINE CONNECTION)

XLR        TO        STEREO PHONE PLUG

3.5 MM (MINI) PHONE PLUG

XLR        TO        3.5 MM PHONE PLUG

PHONO PIN (RCA) PLUG

XLR        TO        PHONO PIN PLUG
